3. REPORTS and PRESENTATIONS

A. Planning and Network Advisory Committee (PNAC)
   Mr. Rene Hurtado reported on the following.
   - Service animal policy was presented by Yadira Velasco specifying what will be allowed at EHN regarding service animals and center being ADA compliant. Contact was made with ADA specialist, information gathered defined service animals as dogs that perform tasks for individuals with disabilities specific to blind, deaf, alerting of oncoming seizures or calming person with PTSD. Committee was informed signage will be displayed at centers upon board approval of policy to protect the rights of all clients served by EHN.
   - Information on EHN 50th Anniversary was provided to members detailing EHN’s history in the El Paso community. John F. Kennedy’s Community Mental Health Act altered the delivery of mental health services nationwide. The El Paso Center has emerged a strong organization with a wide array of services and supports over the past 50 years. Committee members were informed of all the media events to promote mental health awareness, decrease stigma and celebrate EHN 50th Anniversary which members of PNAC were a part of.

B. Chief Financial Officer’s report on Emergence Health Network financials.
   Ms. Pauline Motts reported the following points:
   - Compared to budget for the month there was a $46k unfavorable variance after normalizing the 1115 Waiver. Three major costs include; higher capital expenditures, higher net fee for service revenues and Project Emerge; funds that should have been deferred income over $100k.
   - YTD basis - $878k favorable to budget. Had expected a $1.1 million loss after 1115 Waiver but are under $200k loss. Operations have helped the increase in MAC and expect to continue accruing. More EHR incentives are expected throughout the years that are offset by the capital expenditures and lower net fee for service revenue.
   - Compared to April last year we are about $276k under due to Project Emerge group class and offset by higher IDD revenue. YTD basis - $195k off from this time last year due to higher occupancy cost, capital expenditures and lower net fee for service revenue. There were no penalties this year that had to be absorbed last year. Higher EHR incentive revenues.
   - Health Fund – broke even; have not booked any stop loss for the current month.

C. Chief Executive Officer’s Report regarding current EHN Operations and clinical services.
   Ms. Daugherty reported on the following:
