• Lower net fee for service revenue across several divisions, MH is at $210k, IDD and Diversion are about at $45k to $60k ending up with a balance of $369k.
• General revenue – an adjustment was made due to the removal of the ECI program ending with a loss of approximately $238k. Collections for the ECI program are going well. Individual contractors were paid over 30 days at various times during the year due a variety of instances, such as: invoices being held by certain individuals, accounting system conversion issues, difficulty receiving invoices. Staff has been informed to submit all invoices to Accounts Payable. The 1115 Waiver project brought in revenue of $4.3 million in the month of July with a cash balance of approximately $14 million dollars.
• Higher General & Administrative Salaries and Benefits primarily related to the incentives that were paid out in July.
• Lower net fee for service primarily due to IDD. YTD - higher capital expenditures of $30k.
• Year to year the net fee for service decreased due to the IDD census. Higher occupancy costs are due to new building spaces. Higher travel cost due to the policy stating EHN will pay three cents less than the IRS mileage rate that was not being implemented.
• Health Fund - larger claims in 2016 requiring us to hit our stop loss of $100k in several instances. This is related to several employee claims with long term or sudden illnesses.
• Sun City – gained $35k for the month of July due to a couple of invoices that were double recorded in September and October that have been corrected.
