E. Ad-Hoc Committee – Psych ER

Dr. Escamilla provided an update regarding the Ad-Hoc committee. The situation has not changed in terms of patients at Psych ER’s. Patients are often there for many hours, and days at times, waiting for an inpatient bed to become available. The first component is the Extended Observation Unit, which is estimated to be up and running within a few months and should be
helpful to some extent. The second component is the Psychiatric ER, to be located near a general medical ER. The State may be willing to lease the space in EPPC that was previously built as a Psych ER unit. The third component going to be the number of beds funded or supported at the county level for patients that need hospitalization, possibly through leasing of space at EPPC.

Kristi Daugherty also provided an update on the Extended Observation Unit. The RFQ for architectural services closed last week and EHN is now in the process of evaluating the responses.
