EHN Celebrates Expansion of Mental Health Services during Mental Health Awareness Month

~ Grand Opening of New Mental Health Outpatient Clinic Location and Counseling Services~

(El Paso, Texas May, 2018) Emergence Health Network is proud to announce the opening of its newest facility and creation of the EHN Behavioral Health Campus Concept. "I cannot overstate how proud we are to be opening this facility to the community. We worked very hard to make the design truly state of the art," said Kristi Daugherty, Emergence Health Network CEO. "For years mental health facilities were relegated to substandard facilities with little to no amenities when compared to other healthcare outpatient facilities. We wanted to be sure that this facility stood shoulder to shoulder with any facility in the city and I believe we have succeeded. Plus, it is only fitting that we are hosting our Grand Opening today, because we are also celebrating May as Mental Health Awareness Month"

The opening of the new facility is the latest in a series of service enhancements and expansions at EHN. The newest location is positioned right across the street from EHN's flagship location at 1660 Montana Avenue. Previous to the opening of this center, the EHN Mental Health Central Outpatient Clinic was housed over at 1600 Montana. "We are now expanding to this new, larger location, along with the core of our counseling services. The opening of this facility allows for the expansion of our EHN Crisis Services across the street which means we are now better equipped to serve the mental health needs of our El Paso community."

One in five Americans is affected by mental health conditions. The stigma that individuals with a diagnosis face is toxic. It creates an environment of shame, fear and silence that prevents many people from seeking help and treatment. The new EHN Clinic location provide a safe and nonthreatening way to access services instead of waiting until symptoms escalate into a crisis situation where individuals pose a risk to themselves and others due to their untreated symptoms.

Grand Opening New Mental Health Clinic Location
