<b>III. Substance Use Disorder Continuum Of Care</b>	As part of the strategic planning, the Development division worked with the OSAR program to develop SUD Continuum of Care to see what community resources are available and what other services they offer to identify gaps. Clinical Operations and Finance will work along to develop what service lines would be feasible to launch for next fiscal year and or to establish partnerships with community resources as needed.		
<b>IV. CEO Updates</b>	Actively working on return to work plans if transition to go back to office is needed and EHN is working with HHSC to work on flexibility to be able to continue the use of remote codes. Exposure mitigation and aligning facilities with needed measures such as including supplies and ensuring correct occupancy capacity has been implemented. In addition, EHN is actively searching on a platform for telemedicine to be able to see clients without issues and easy to navigate on both ends (Client and Provider). As of this month Doxyme seems to be the best platform and is currently being tested.		Kristen Daugherty
<b>V. FY20 Strategic Plan Update</b>	Complete Third quarter updates were provided.		Kristen Daugherty
<b>VI. Adjournment</b>	Meeting adjourned at 9:21 a.m.
