PLAN MISSION STATEMENT

EHN Mission
- Emergence Health Network ensures superior recovery-based services for mental health, Intellectual developmental disability, and related conditions for the people of El Paso County.

EHN Vision
- EHN will lead behavioral and developmental services in the El Paso region ensuring access to quality services, advocating for a better quality of life, and providing strength, hope and recovery for persons with mental illness and developmental disabilities.

EHN Values
- Engage our customers by communicating the benefits of services and recovery
  - Celebrate our customers strengths when participating in services
  - Foster hope in every service delivered
- Demonstrate evidence of our customers successes toward recovery
- Recognize our customers and staff for all achievements made

PURPOSE
The purpose of this plan is to provide guidance for an implementation strategy to achieve the vision, conquer the mission, and sustain high quality values well-embedded within the organization.

BACKGROUND: Sherwood Forest Hospitals NHS EHN has developed a plan which describes the Operations priorities, expectations, and intentions for the next year in alignment to the Strategic Plan. This plan is inclusive of EHN’s external providers who play a vital role as local providers of behavioral and collaborative healthcare services.

Over the past few years, EHN have made tremendous progress in process improvement that have shaped new and robust operations, allowing the agency to provide excellence service to the populations of the El Paso County catchment area, in Texas. EHN will be serving adolescent male and female, ages 13 to 17 and adult male and females, ages 18 and older. The subpopulations served by EHN are the individuals with Substance Abuse Disorders (SUDs), Mental Health/ Mental Illnesses (MH/MI), and/or Individuals with Intellectual and Developmental Disabilities (IID/IDD).
Whilst recognizing positive change in the services EHN render, there is still more to be done to deliver innovative and outstanding healthcare as a provision of EHN’s expanded vision.

**Scope**

This operation plan is applicable center-wide, across all clinical operations to all EHN employees (Associates and Staff) and is implemented in partnerships with providers and other associates contracted to provide services for EHN.

**Responsibilities**

A. Chief Executive Officer, (CEO)
B. Associate Chief Executive Officer
C. Chief of Staff
D. Chief Compliance Officer,
E. Chief Clinical Officer
F. Chief Nursing Officer
G. Chief Information Officer
H. Chief of IDD Services
I. Chief of Behavioral Health
J. Chief of Diversion
K. Chief of Collaborative Care
L. Chief of Crisis Emergency Services
M. Quality Management
N. Operations Management

**Objectives**

The Operations priorities, are extracted from the agency’s strategic plan and drives the operational plan:

- **Strategic Objective #2**: Family-Centered, Holistic Care: To ensure that all of Emergence Health Network’s clinical programs treat the whole person’s needs - including mental health, substance use disorder, intellectual and developmental disability, primary care, and social environment conditions
- **Strategic Initiative #2A**: Certified Community Behavioral Health Clinic: To fully implement all the requirements for Certified Community Behavioral Health Clinics (CCBHC) under the Excellence Act to ensure that the provision of comprehensive, coordinated, evidence-based care for individuals in our community.
- **Strategic Initiative #2B**: Care Coordination and Transition: To initiate and strengthen the care coordination and care transition efforts for consumers to ensure continuity of health care and continued recovery.
- **Strategic Initiative #2C**: Primary Care: To ensure that all EHN consumers have access to primary care services
- **Strategic Initiative #4A**: Addressing Service Gaps in Our Community: To continue to expand services independently or with community partners to address regions, populations, and communities that are underserved
- **Strategic Initiative #4B**: Service Expansion and Growth: To explore opportunities for expanding the size and diversity of services and revenues at EHN through expanded services, partnership, and/or geographic expansion.

The process to address the priorities of the operational plan is outline below and reviewed annually.

1. The Executive Management Team develop the agency’s strategic plan and present to the Board of Trustees, every three (3) years.
2. The Operations team determine the goals and objectives for the Operational plan based on the strategic initiatives, annually:
   a. The goals and objectives of the operational plan are department-focused.
   b. Every department should have a leader or team of leaders responsible for creating their operational plan, which may include several units within a department.
3. Based on the goals and objectives established, a plan of action to implement will be developed.
Emergence Health Network (EHN) operational plan aligns with the Quality Plan and CQI Policy, Document No. 2490, to ensure the operations are guided by robust process improvements. The operational plan is intended to facilitate the engagement of the agency's vision with the quality of behavioral and collaborative healthcare services being provided to patients and their families. The operational plan promotes the mission, goals, and objectives of the agency. The operational plan is based on the agency's framework and the structure of its processes that are essential to ensure that healthcare quality standards are addressed, and continuous process improvements are implemented.

The operational plan is implemented in compliance to Title 25, Part 1, Chapter 448, Subchapter E, Rule 448.502. Health Services, Facility Requirements: Operational Plan, Policies and Procedure and in direct alignment with EHN’s mission, vision, and objectives/values, as outlined in The EHN Mission, Vision, and Values Statement, Document No. 3009:

**Orientation and Education**

All EHN Leadership will receive orientation of this plan through Leadership meetings as well as a formal read through the agencies repository.

**Performance Monitoring**

The Emergence Health Network operational plan include goals and objectives based on strategic initiatives to provide the El Paso community with more options in meeting mental health/mental illness, substance use disorders, and intellectual developmental disabilities needs.

EHN provide services in several areas, including collaborative care by integrating primary care, behavioral health, and addiction services in one setting. Treatment programs, such as Partial Hospitalization and Intensive Outpatient, for adults dealing with depression, anxiety, and other problems that may impact work, family or daily functioning can be used as an alternative to and/or a step-down service from inpatient residential treatment or to stabilize a deteriorating condition and avert hospitalization.

**Annual Evaluation**

<td>Collaborative Care</td>
<td>Strategic Initiative #2C: Primary Care: To ensure that all EHN consumers have access to primary care services</td>
<td>To provide outstanding care to our patients via integrated model in collaborative care</td>
<td>Integrated Care</td>
<td>Primary Care clinicians screen all patients for depression, mood disorders and substance abuse and initiate the engagement process with a behavioral health consultant to help coordinate the patient's care that have screened positive for behavioral health needs. Behavioral Health clinicians collaborate with primary care to aid in coordinating behavioral health treatment. The multidisciplinary team uses the patient-centered care model to assist in developing treatment goals and behavior changes for conditions such as chronic medical illnesses, stress related physical symptoms and life stressors.</td>
<td>Integrated Care within the Collaborative Care Division is essential to treating the whole person. The goal for collaborative Care is to increase the Integrated Care Program to additional outpatient clinics in the community.</td>
</tr>
<tr>

Emergence Health Network’s clinical programs treat the whole person’s needs - including mental health, substance use disorder, intellectual and developmental disability, primary care, and social environment conditions.

Collaborative Care

Strategic Initiative #2B: Care Coordination and Transition: To initiate and strengthen the care coordination and care transition efforts for consumers to ensure continuity of health care and continued recovery.

Hospitalization and Intensive Outpatient

Psychiatric care through active treatment by applying clinically recognized practices. Treatment is at a level more intense than outpatient day treatment or psychological rehabilitation and closely resembles highly structured, short-term hospital inpatient programs.

Collaborative Care

To help guide our patients onto the road of recovery via various alternatives for treatment.

Alternative Treatment Programs - Partial Hospitalization Program (PHP)

The Intensive Outpatient Program is structured to provide a short term, less intensive level of care for clients that do not require daily monitoring. There is an intense focus on relapse prevention and management that allows individuals to be as autonomous as possible, while still struggling with daily life skills.

Diversion Division

Strategic Objective #2: Family-Centered, Holistic Care. To ensure that all of Emergence Health Network’s clinical programs treat the whole person’s needs - including mental health, substance use disorder, intellectual and developmental disability, primary care, and social environment conditions.

Provide Batterers Intervention and Prevention services to adult male batterers/family violence offenders.

Battering Intervention and Prevention Program (BIPP)

BIPP - Family Violence is a program that is certified as a Texas Department of Criminal Justice Battering Intervention and Prevention Provider and is one of only three programs in El Paso accredited by the Texas Department of Criminal Justice - Community Justice Assistance Division.

Diversion Division

Strategic Initiative #4A: Addressing Service Gaps In Our Community: To continue to expand services independently or with community partners to address regions, populations, and communities that are underserved.

To help guide our patients onto the road of recovery via various alternatives for treatment.

The Parenting Education Program

The Parenting Education Program is available for parents who have children of any age. A comprehensive parenting education curriculum is used to help parents learn effective ways to relate to their children from birth through adolescence.

Diversion Division

Strategic Initiative #4B: Service Expansion and Growth: To explore opportunities for expanding the size and diversity of services and revenues at EHN through expanded services, partnerships, and/or geographic expansion.

To implement care management services that address essential services for severely mentally ill people in the community and defendant under supervision.

United States Probation Office (USPO)

USPO program meets the requirements of court ordered management groups for substance use, mental illness and Co-occurring Illnesses. EHN's Care Management Services, UA services.

Diversion Division

To provide guidance for mental health services for clients being released from prison, other incarcerated mental health services, and those individuals under parole supervision who have been placed in a halfway house (HWD). Reduce the number of individuals with mental health issues engaged in criminal justice system.

CA/OMRI (Probation/Parole Client), Jail Diversion, OCR (Outpatient Competency Referrals), ACT (Assertive Community Treatment), 16U2, (Assessment in Jail). Jail Clinic, Court Services (Forensic State Hospital/State discharge/Community referrals)

Diversity programs embedded in the criminal justice system designed to enable offenders of criminal law to avoid criminal charges and a criminal record.

Diversion Division

Strategic Initiative #5A: Identifying Service Gaps in Our Community: To continue to expand services independently or with community partners to address regions.

To expand availability of behavioral health treatment services 1) Increase access to behavioral health treatments and services 2) Enhance delivery of Veterans - One Stop Center: mental health services, referrals, education, counseling, case management referrals.

Veternas - One Stop Center: mental health services, referrals, education, counseling, case management referrals.

Veterans specific services, substance use treatment, programs for justice involved individuals, and community education on behavioral health. Family Support, Peer.

EHN plans to expand the behavioral health services and resources currently available through the Veterans' One Stop Center (VOSC). The VOSC will incorporate telehealth and

## Intellectual Disabilities Services

**Strategic Objective #2: Family-Centered, Holistic Care**

To ensure that all of Emergency Health Network’s clinical programs treat the whole person’s needs – including mental health, substance use disorder, intellectual and developmental disability, primary care, and social environment conditions.

**Ensure that all required services identified in the Description of IDD Services are provided each quarter. Assistance in accessing medical, social, educational, and other appropriate long-term services and supports (LTSS) Case Management that will help an individual achieve a quality of life and community participation acceptable to the individual as described in the plan of services and supports.**

**EHN Learning Center - Day Habilitation, Intermediate Care Facilities (ICF), Home and Community-Based Services (HCS), Texas Home Living (TXHIL), and Pre-Demission Screening and Resident Review (PDSR)**

**Community-based services and supports that allow persons to remain in their own or their family’s home, to residential services in which persons live in a structured setting with 24-hour supervision. Community services are individualized activities that are provided in the person’s home and at community locations, such as libraries and stores. Supports may include habilitation and support activities that foster improvement of, or facilitate, the person’s ability to perform daily living activities; activities for the person’s family that help preserve the family unit and prevent or limit out of the home placement of the person; transportation for the person between home and his or her community employment site or dayhab site. Respite care, crisis respite, employment assistance, supported employment, nursing, behavioral supports, and service coordination are among other services and supports.**

**Service Coordination is provided by the LDDA staff, assessing, service planning and coordinating services on an ongoing basis for continuum of care. At least semi-annually, LDDA must provide or arrange for the provision of educational or informational activities addressing community living options for individuals in nursing facilities in the LDDA’s local service area and their families. These activities may include family-to-family and peer-to-peer programs, providing information about the benefits of community living options, facilitating visits in such settings, and offering opportunities to meet with other individuals who are living, working, and receiving services in integrated settings, with their families, and with community providers.**

## Crisis & Emergency Services

**Strategic Initiative #1B: Care Coordination and Transition: To stabilize and strengthen the care coordination and care transition efforts for consumers to ensure continuity of health care and continued recovery.**

- Provide prompt and comprehensive assessment of a psychiatric crisis
- Provide prompt crisis stabilization
- Provide linkage to appropriate services
- Reduce inpatient and law enforcement interventions

**Extended Observation Unit, Crisis Emergency Services**

**EOUs provide access to emergency psychiatric care 24 hours a day, 7 days a week (24/7) and can manage individuals with high to moderate psychiatric symptoms. Individuals are provided appropriate and coordinated transfer to a higher level of care if needed. EOU services shall be provided in a safe and secure environment and staffed by medical personnel and mental health professionals.**

**Provide Continuity of Care services – Coordination of the range of services available to an individual consumer so that an optimal service mix is provided at all times without disruption; the concept can apply to the current services mix, the flow of services over time, and the consistency of the consumer-provider relationship.**
