Background Information and Services to be Provided.

BACKGROUND

HHSC provides funding to LMHAs and LBHAs to provide inpatient psychiatric services to people with acute symptoms in need of inpatient psychiatric treatment and stabilization. These services treat people on a voluntary/involuntary admission, civil commitment, or forensic commitment. Civil commitments are for people receiving court-ordered mental health treatment through a probate court. Forensic commitments are for mental health treatment as ordered by a criminal court, and for people adjudicated incompetent to stand trial pursuant to Texas Code of Criminal Procedure, Chapter 46B relating to Incompetency to Stand Trial, or not guilty by reason of insanity pursuant to Chapter 46C.

OBJECTIVES

Private Psychiatric Bed (PPB) funding serves as a vital resource for individuals needing higher level of care. Funds allocated and paid under this statement of work, once any available third-party insurance, indigent care programs, or other local medical care programs are exhausted, must cover the costs for all treatment including the cost of psychiatric and physician services and all non-prescription medications (including discharge medications) incurred by or on behalf of patients. requiring inpatient care. By offering treatment for both voluntary and involuntary admissions, PPB ensures access to essential mental health services for individuals in crisis situations, complementing the statewide coverage services provided by crisis hotlines and Mobile Crisis Outreach Teams (MCOT) across all 254 counties.

Emergence Health Network invites qualified Provider(s) to submit proposals for adult and/or child/adolescent psychiatric inpatient beds. Vendors must support the provision of inpatient mental health hospital services staffed with medical and nursing professionals who provide 24-hour professional monitoring, supervision and assistance in an environment designed to provide safety and security during acute behavioral health crisis. Staff provides intensive interventions designed to relieve acute symptomology and restore the patient's ability to function in a less restrictive setting.

Services sought:

1. Adult Psychiatric Inpatient Beds
2. Child and Adolescent Psychiatric Inpatient Beds

The goals of Emergence Health Network- Crisis Emergency Services division are to:

Goal 1: Ensure Quality Crisis Interventions

- Enhance crisis intervention training for staff to ensure evidence-based practices and culturally competent care.
- Implement ongoing quality assurance measures to assess the effectiveness of crisis interventions and Private Psychiatric Beds utilization.
- Establish partnerships with external agencies to stay abreast of best practices in crisis care and stabilization.

Goal 2: Improve Access to Crisis Services

- Increase the availability of crisis hotlines, Mobile Crisis Outreach Teams (MCOTs), and crisis response services.
- Expand crisis services to underserved areas within El Paso County, ensuring statewide coverage.
- Collaborate with community partners to reduce barriers to access and increase public awareness of crisis services.

Goal 3: Enhance Communications in Crisis Response

- Implement a comprehensive communication strategy to inform the community about available crisis services.
- Establish a robust system for information sharing and collaboration among crisis service providers.

- Enhance communication channels between the Crisis Emergency Services Division, local law enforcement agencies, Emergency Departments, and Inpatient facilities.

Goal 4: Develop Resources to Support Crisis Care

- Identify external stakeholders as resources to expand crisis services and resource availability.
- Develop partnerships with local organizations to broaden the range of resources available during and after crises.

Goal 5: Strengthen the Crisis Emergency Services Relationships with External Organizations

- Foster a culture of continuous improvement through regular training, feedback mechanisms, and evaluations of services provided.
- Promote a supportive work environment that aligns with EHN's philosophy and values, recognizing and celebrating achievements at all levels.

These objectives and goals align with Emergence Health Network's overarching mission, vision, and values, aiming to provide superior recovery-based crisis services and contribute to the well-being of the residents of El Paso County.

SCOPE OF SERVICES

HHSC allocates funding to LMHAs and LBHAs to ensure the provision of inpatient psychiatric services to individuals facing acute mental health crises. These services encompass voluntary/involuntary admissions, civil commitments through probate courts, and forensic commitments as per Texas Code of Criminal Procedure, Chapter 46B (Incompetency to Stand Trial) and Chapter 46C (Not Guilty by Reason of Insanity).

Prospective providers are expected to adhere to a set of comprehensive criteria ensuring the delivery of exemplary psychiatric services. Proposers should present a well-defined plan for accommodating voluntary/involuntary admissions, outlining procedures for assessment, admission, and treatment planning.

Providers must exhibit the capability to provide high-quality psychiatric treatment and stabilization services, highlighting evidence-based practices and clinical interventions for acute symptom management. Importantly, the quality of care delivered should remain uncompromised regardless of the funding type or insurance coverage of the patient. Private psychiatric beds funding must not determine the standard of treatment received by individuals, especially in cases where funding sources may be limited or absent. Collaboration efforts with law enforcement, legal entities, and other stakeholders should be clearly articulated, emphasizing coordination mechanisms that ensure a smooth transition for individuals navigating both legal and treatment processes. The commitment to delivering superior care should persist as a guiding principle, unaffected by the financial aspects of the funding source, to guarantee that all patients receive the highest standard of treatment and support.

A robust quality assurance plan is essential to monitor and enhance the quality of inpatient psychiatric services, ensuring strict compliance with state regulations, HHSC guidelines, and relevant legal frameworks. Proposers should also delineate crisis response procedures for emergency situations within inpatient psychiatric facilities, emphasizing emergency preparedness measures and staff training. Lastly, a commitment to cultural competence in service delivery and a patient-centered care approach that respects individual rights and preferences must be clearly demonstrated.

Psychiatric Emergency Flow Chart

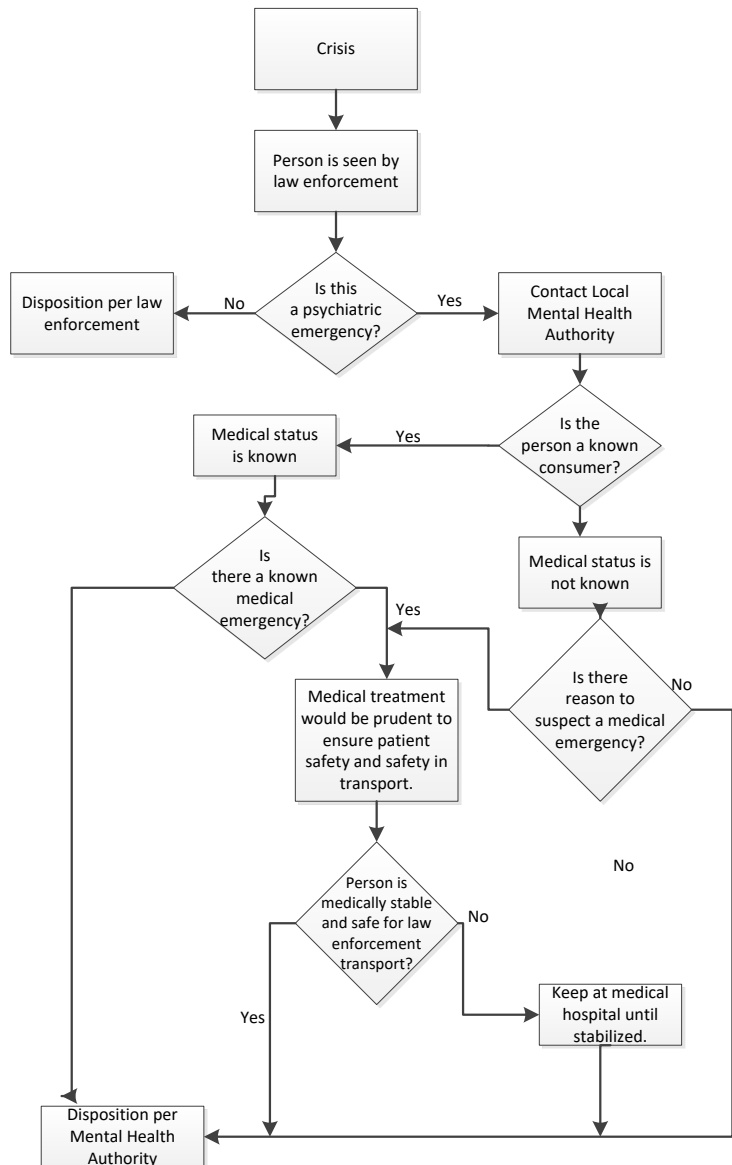

The Peace Officer may use the following indicators to determine if a medical emergency exists:

- Overdose
 - Acute intoxication with alcohol or drugs
 - Chest pain
 - Fluctuating consciousness
 - Stab wound, bleeding, or serious injury
 - Seizure activity
 - Complications from Diabetes
 - Injured in assault or flight
 - Victim of a sexual assault
 - Person is a resident of a nursing home or assisted living facility.
- Note: With the elderly, sometimes medical problems can cause symptoms that look like mental illness, but are not. It's important to rule out medical problems as the cause.

****An inpatient facility or a mental health facility is not statutorily authorized to require a peace officer to transport a person in custody under Chapter 573, Health and Safety Code, to a medical facility for a medical evaluation prior to taking that person to the mental health facility.**

The opinion of law enforcement as to whether a medical emergency exists is final in the screening conducted with the Local Mental Health Authority.

See Attorney General Opinion No. GA-0753, dated December 28, 2009, regarding whether a peace officer who has taken a person into custody under Chapter 573 of the Health and Safety Code may be required to transport that individual to a medical facility for evaluation prior to taking that person to a mental health facility.

El Paso Emergence Health Network (EHN) and its dedicated staff are committed to assisting El Paso's most vulnerable citizens, residents with either or both severe and persistent mental illness and/or intellectual/development disabilities and/or substance abuse issues. At EHN we work to help these individuals and their families find resources and treatments to help with their disorders/disabilities and become as independent as possible.

EHN is proud to have created impactful change in the delivery of mental health, intellectual disability, and addiction services in the West Texas region. As the Local Mental Health and IDD Authority in El Paso County, it is our responsibility to meet the needs of our community and we believe the level of services and quantity of services we provide is unmatched in our area. We have dedicated employees and staff leaders who have contributed to the tremendous growth experienced company-wide which has allowed for the expansion and introduction of new services.

In 2016 EHN celebrated its 50th Anniversary and although we have undergone some name changes throughout the years, our commitment to our residents has remained the same. In 1963, President John F. Kennedy signed the Community Mental Health Act which established mental health centers in communities. It helped people with mental illness and/or IDD who were "institutionalized" move back into their communities by creating "Local Mental Health Authorities." In 1966, the Local Mental Health Authority (LMHA) was opened in El Paso and Emergence Health Network born. EHN is now one of 39 LMHA in Texas.

As the largest mental health provider in El Paso County, we currently have 19 service locations where we assist a wide array of our population to include adults, children, veterans, the homeless and justice-involved individuals.
