ADDENDUM I

To: All Interested Proposers

From: Emergence Health Network, Procurement Team

Date: April 7, 2026

Subject: Technology Security RFP #26-004 (formerly Physical Security System & Services (Yandell Facility) Addendum I

This addendum, containing the following revisions, additions, deletions, and/or clarifications, is hereby made a part of the documents for the above mentioned Request for Proposal. Proposers shall take this Addendum into consideration when preparing and submitting their response to this solicitation.

To all prospective bidders, please note the following changes and clarifications:

Title Change

The title of this RFP is changed to Request for Proposal 26-004 Technology Security as of the date of this Addendum. The title will be noted as such on all future documents. EHN will accept submissions under the new and previous name.

1. Atlas Clinic Camera System Additive Alternate

EHN is adding a supplemental, site-specific camera security project for the Sunnyside Apartments location at 4635 Atlas under the existing clinic security systems RFP. This scope shall be treated as a separate project component for pricing, approval, budgeting, and implementation purposes.

The Sunnyside/Atlas scope consists of furnishing and installing six exterior cameras, associated Cat6 cabling, use of existing underground conduit pathways, and termination back to the IT equipment owned by EHN in the main building.

Respondents may provide pricing for one of the following implementation approaches:

Option A – Local Non-Cloud Recording Solution:

Provide an NDAA-compliant local camera system utilizing six outdoor cameras and a 16-channel NVR with local storage. This option shall not require recurring software licensing and shall include remote viewing capability via application access. This option will operate as a standalone system.

Option B – Cloud-Integrated ALTA-Compatible Solution:

Provide a camera system utilizing six outdoor cameras and all required bridge/connector components necessary to integrate the cameras into the organization's AVIGILON ALTA dashboard. Pricing shall include all required software, bridge, and camera channel licensing for the initial term identified in the proposal.

This Atlas location scope is to be evaluated as an additive alternate and awarded separately from the base clinic security systems project. EHN reserves the right to select either option, defer the Atlas scope, or award the Atlas work independently based on budget, integration requirements, and operational priorities.

2. Response & Communication Protocols

VENDOR SUBMISSION DEADLINE:

Notice to Interested Parties

Sealed Proposals, if mailed please mail to: Emergence Health Network, Attention: Purchasing Department, 201 E. Main Suite 600, El Paso, Texas 79901 by April 30, 2026 before 3:00 P.M. MST ("Submission Deadline"). Proposals may also be submitted via email. Email attachments shall not exceed 25 MB per email. If files exceed this limit, please provide a secure shared link (e.g., OneDrive,

SharePoint, Dropbox) instead of sending large attachments. Send emails to RFP@ehnpaso.org prior to the Submission Deadline.

Corporate address:

EMERGENCE HEALTH NETWORK

Attention: Purchasing Department

201 E. Main Suite 600

El Paso, TX 79901

(915) 887-3410

Proposals must be in a sealed envelope and the subject line of the email must state:

“Technology Security RFP #26-004”

Response & Communication Protocols

Do not contact the requesting department. Any questions or additional information required by interested vendors must be emailed to: bidquestions@ehnpaso.org before 3:00 P.M. MST ~~April 8, 2026~~ April 25, 2026 (“Q & A Period Closes”). Solicitation number and title must be on the “Subject Line” of the email. Attempts to circumvent this requirement may result in rejection of the proposal as non-compliant.

All other terms, conditions, specifications, and requirements of RFP #26-004 remain in full force and effect. It is the responsibility of each proposer to check the EHN website (www.emergencehealthnetwork.org; Procurement) prior to the submission deadline to verify whether any additional addenda have been posted.
